

Group 3
Sprint 2
26 March 2021

What went right?

- Consistent meetings
- Good communication
- Active participation
- Obtained Raspberry Pi, LED strip, and water jug for physical demonstration
- Started to get familiar with new programs
- Deciding between arduino and raspberry pi

What could have gone better?

- We were set back when introduced to the raspberry pi as more powerful alternative to arduino
- More progress made
- Having a monitor on hand
- Learning how to use and install raspberry pi and python together
- Adapt arduino circuit to run with raspberry pi
- Ordering mic

What could be made better in the next sprint?

- More familiarity with raspberry pi
- Learning python syntax
- Circuit construction
- More coding progress
- Possibly introduce mic and speaker
